# CREATE README

Watching other profiles on Github, you might notice that some have interesting readme on their profiles. In this post, I will share with you some cool tips for your Github profile.

So, to make a GitHub profile Readme you have to make a repo with your GitHub username. In my case, it will be [mukulrajpoot262610](#)

**MUKUL  
RAJPOOT**

# GENERATE

Now, go to this amazing website: [Link](#)

GitHub Profile README Generator

Title

Hi 🙋, I'm Mukul Rajpoot

Subtitle

A passionate Full-stack developer from India

Work

🔧 I'm currently working on

project name

project link

👥 I'm looking to collaborate on

project name

project link

💡 I'm looking for help with

project name

project link

🌱 I'm currently learning

Frameworks, courses etc.

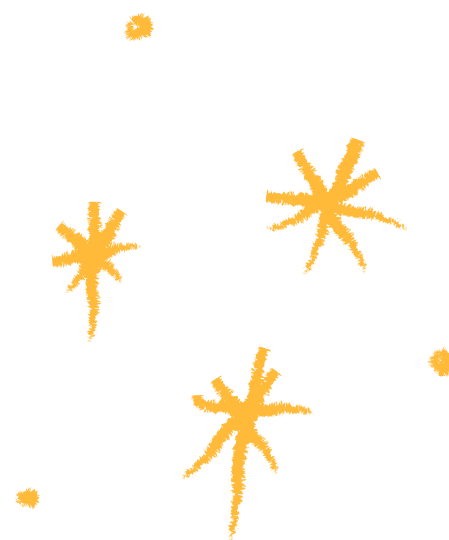

and click on generate readme button after filling your details.

**MUKUL  
RAJPOOT**

# ADD TO README

After generating readme click on the copy markdown button and paste that on your readme.md file.

You can also preview before committing.
